

OCTOBER VACATION CARE 2024

01 Oct 2024

Wheelie Day 🚲 🛹 🛼

Children brought their bikes, scooters, roller skates, skateboards, heelys, and even hoverboards for our wheelie day today. They enjoyed zooming around the courts with their safety helmets for much of the morning and afternoon. They weaved their way through obstacle courses set up for them, displaying their skills to their peers. Other than being active on wheels, the children were also offered many other activities to enjoy throughout the day including new toys, colouring in, preparing snack, and more.

Silent Sounds Disco

The children had an amazing time throughout the day today with the Silent Disco! We had the opportunity to listen to various songs through our headphones and dance; challenge each other to a dance off; have fun with a variety of Just Dances on the big screen and a game of musical chairs! There was something for everyone! We also enjoyed time outside playing in the beautiful sunshine and inside activities during the day too.

Let's Create Movies!

This morning started with a conversation around movie making and we watched a short film about what processes we would need to undertake to get our movies made! We worked in small groups to first start with our storyboard - discussing what our movie would be about and how the flow would go. Once that was done, we then started to make the costumes and props that we would need. Then the fun begins! We can film and make our story appear! After filming, we then set about editing. Working in our groups, we selected the best takes to put in our films. This afternoon, we had the opportunity to share the films we had made with each other and enjoy everyone's hard work!

'C' day 🧑🏻‍🎨🍪

Today was an exciting day focused on the letter "C"! The children collaborated on a colourful poster of words starting with "C," sparking creativity and teamwork. At the construction station, they built impressive structures. They brainstormed activities beginning with "C," developing critical thinking skills, and decided to create their own cinema. A group crafted personalised popcorn boxes for everyone, adding special touches to their movie experience. They settled in to watch *Candace Against the Universe*. After the film, the fun continued as they decorated clown cookies with Smarties and sour straps. Overall, it was a fantastic day filled with learning and creativity centred around the letter "C."

08 Oct 2024

Playground fun ☀️

This morning the children ventured off to the first playground where they had lots of free play and a couple games of 'floor is lava' which they particularly enjoyed. The children then made their way to the second playground where they enjoyed some refreshing zooper doopers in the sun before trying out more of the fun playground equipment to offer.

09 Oct 2024

Interactive Games

Today, the children have enjoyed having Interactive Games at the service! Using a timer, we have ensured that children have had a turn on the machines, as well as having opportunities to take part in other activities at the service too. Popular games today included Lila's World, Game of Life, bowling, paint, Minecraft and Math Jumps. There were a mix of two player and individual games. Children also took part in a whole group game, where Scott told them about a character from a computer game and they then had one minute to draw it on their paper. They then showed these creations to the group - with a vote and a prize for the closest to the character! We also enjoyed some time outside and inside - with Lego, drawing, playground and soccer being quite popular today.

Camping 🏕️ day

Today we have had so much fun with loads of teamwork. The children really focused on making their campsite a home away from home. We have played lots of games, bubbles and building campfires. Of course we had to have s'mores. The wind made a few tents runaway but we managed to save them. The children are natural campers, and their imagination has been in overdrive. We are enjoying the day all together so much.

The amazing race!

Today the children travelled around the world for the amazing race. They visited America, Japan, Australia, Italy and Africa. In some countries there were things to find and in other countries there were challenges to complete. In Italy the pasta had to be threaded onto the string. In America there were footballs to be kicked and soda cans to be stacked. In Africa the children used a hose and pretended they were holding an elephant's trunk. The playground was Japan and there were ninjas hidden everywhere with secret codes. Only when the passport was completed for each country, could the children find Scott and win the race.
